

**ARISTO PHARMA** is a group of well-known, traditional, medium-sized pharmaceutical companies such as Steiner, Lindopharm, Esparma, Pharma Wernigerode and Medinsa. Our expertise lies in the development, production of generic pharmaceuticals and herbal medicines in the OTC sector, contract manufacturing for well-known pharmaceutical companies as well as comprehensive services in the areas of registration and quality control as well as the distribution of our products.

ARISTO Pharma's mission is focused on contributing to the accessibility and universality of the healthcare system with the aim of developing a value-added activity for the professionals and patients.

**We are looking for a:**

**SENIOR SAP CONSULTANT** in the area of pharmaceutical production (process industry)

Reporting to the Group Head SAP Support (located in the HQ in Berlin) you will support us in a first stage for the implementation of SAP ERP in Spain at LABORATORIOS MEDICAMENTOS INTERNACIONALES, S.A. (MEDINSA) and ARISTO PHARMA IBERIA, S.L. and also build up SAP application support together with us.

Both companies, with a solid track record in Spain and Portugal, are key references within the ARISTO Group and play a fundamental role in the Group's global strategy.

Responsible challenges await you in a varied project environment and in the support organization.

#### **Your tasks**

- You will be involved in the redesign of business processes in connection with the conception and implementation of Aristo SAP and will focus on production master data, production execution and process optimization in production with SAP.
- You will work with us to set up SAP application support and look after the different companies once the system has gone live.
- In this context you will work in a quality assurance system and document and validate the processes in the SAP system
- You are a competent consultant and contact person for our customers for SAP applications
- Depending on the project and requirements, you will also be responsible for customizing the SAP applications and will be able to implement customer-specific requirements on your own responsibility.
- You can expect support and coaching within the framework of the SAP project from experienced senior SAP consultants and the internal SAP team at Aristo.

#### **Your profile**

- You need to have a technical or university degree, or equivalent professional experience in the SAP environment.
- You need to be specialized in at least one area of SAP within the framework of the SAP project (core areas for a possible specialization are PP/PI, QM, WM).

#### **Medinsa – a company of the Aristo Pharma Group**

LABORATORIOS MEDICAMENTOS INTERNACIONALES, S.A.
